

Team Involvement in Demonstration

Date	04 July 2026
Team ID	
Project Name	A Comprehensive Measure of Well-Being
Maximum Marks	1 Mark

Team Involvement in Demonstration

This document describes the demonstration activities for the Human Development Index (HDI) Prediction System, including the project workflow, machine learning model, Flask web application, prediction process, and result analysis to ensure a well-organized and effective project presentation.

S.No	Team Member Name	Role in Demo	Section Presented	Contribution Summary	Participation (Active / Passive)
1	Ashishpaul Gunipe (Team Lead)	Project Introduction	Introduction & Project Overview	Introduced the project objectives, explained the importance of Human Development Index prediction, and presented the overall project workflow and system architecture.	Active
2	Jessika Jasmin Vemagiri	Data Preprocessing	Dataset & Data Preprocessing	Demonstrated the HDI dataset, explained data cleaning, preprocessing techniques, feature selection, and preparation of data for machine learning model training.	Active

S.No	Team Member Name	Role in Demo	Section Presented	Contribution Summary	Participation (Active / Passive)
3	Karra Murali Mohan Venkata Durga Anil	Machine Learning Model	Model Development & Performance	Explained the machine learning model, training process, prediction methodology, evaluation metrics, and overall model performance.	Active
4	Mandala Prasanna Satya Durga	Flask Application & Prediction	Live Feature Demonstration	Demonstrated the Flask web application, session-based login, country metric prefill, HDI prediction, prediction history, and CSV export functionality.	Active
5	Veera Venkata Surya Sai Pithapurapu	Future Scope	Future Enhancements & Deployment	Explained the scalability plan, cloud deployment, advanced prediction models, database integration, and future enhancements of the project.	Active
6	All Team Members	Q&A Support	Discussion Session	Answered evaluator questions, explained project implementation details, and clarified technical aspects of the Human Development Index Prediction System.	Active

Team Coordination Notes

Aspect	Details
Team Leader / Coordinator	Ashishpaul Gunipe
Overall Team Coordination Rating (1–5)	5/5

Aspect	Details
Any Issues During Demo	Minor synchronization issues occurred during the initial rehearsal while integrating the Flask application with the machine learning prediction module.
How Issues Were Resolved	Conducted multiple rehearsal sessions, assigned clear responsibilities to each team member, verified the prediction workflow, and finalized the complete demonstration flow before the final presentation.
